

AGRISYSTEM - PH.D. IN AGRO-FOOD SYSTEM

Department of Animal Science, Food and Nutrition – DIANA

CREI – Centro ricerca Romeo ed Enrica Invernizzi per le produzioni lattiero - casearie sostenibili

GREENHOUSE GAS EMISSION FROM DAIRY COWS, FROM SOURCES TO UPDATED SOLUTIONS

Dr. Federico Froidi

Researcher, Department of Animal Science, Food and Nutrition – DIANA, UCSC, Italy

An Overview of Sources, Impacts and Challenges

Dr. Ali Reza Bayat

Senior scientist, Natural Resources Institute Finland, Luke

Gas Exchange, Feed Efficiency, and Methane Emissions: Nutritional Perspectives from Respiration Chambers and GreenFeed

Dr. Luca Cattaneo

Researcher, Department of Animal Science, Food and Nutrition – DIANA, UCSC, Italy

Mitigating enteric methane emissions in dairy cows: Performance and metabolic insights from 3-nitrooxypropanol

Seminar

Wednesday, May 13th 2026 h.14.30 pm

Room S. Francesco

Via Emilia Parmense 84, Piacenza
